OBJECTIVE

A motivated Information Technology graduate specializing in web application development. Skilled in front-end and back-end programming using PHP and JavaScript. Strong in problem-solving, teamwork, and continuous learning, with additional ability in IT support and troubleshooting. Eager to apply technical and analytical skills to contribute to a dynamic development team.

EXPERIENCE

Web Application for Cooperative-Education Document Checking | 2025

Developed a web application for tracking cooperative education documents using PHP, JavaScript, and MySQL to streamline data management for students and faculty.

TBS Marketing (4 months Cooperative Education) | Jun - Oct 2024

Web Developer experienced in building and maintaining dynamic web applications with responsive, user-friendly interfaces. I also provide IT support, including troubleshooting, network setup, and hardware/software installation, and assist with SEO tasks like keyword research and content optimization.

Computer Repair Shop | 2020
(Internship 2 months)

Assisting with hardware/software troubleshooting, system maintenance, and providing technical support to customers.
